

FEATURE-RICH HIGH VOLUME WIRE-O® DOCUMENT FINISHING

The "state-of-the-industry" BB500 provides the highest output and most features of any Wire-O® finisher in it's class. At 1,200 cycles per hour, the BB500 is super fast... yet it's easier to operate than any other finisher - with most functions keypad controlled. The automatic functions cut, feed and position the wire for insertion, then sends the document to an automatic

SEMI-AUTOMATIC WIRE-O® FINISHER

BB500

closing station for finishing. The BB500 is extremely versatile, finishing all documents up to 210 sheets* with the largest maximum finished edge in its class of up to 20" - and it's the only finisher in its class that skip binds, up to 9 times per cycle, with or without hangers.

ECONOMICAL TO OWN AND VERY PROFITABLE TO OPERATE

The BB500 is the perfect high volume Wire-O® document finishing solution for central reproduction departments and digital/on-demand printers where efficiency and productivity are a must. From James Burn International, the inventors of Wire-O® document finishing.

*20# Bond or equivalent

DOCUMENT FINISHING SOLUTIONS™

BB500

SEMI-AUTOMATIC WIRE-O® FINISHER

FEATURES & BENEFITS

Most functions are variable and touch key controlled.

Most operations automatic - operator simply places prepunched sheets on wire elements.

Offers the largest in its class finished edge of up to 20" wide.

Optional takeaway conveyor available.

- ◆ **Efficient** Runs at 1,200 cycles per hour. Productivity depends on book type and operator skill.
- ◆ **Versatile** Finishes all Wire-O® books from 2 to 210 sheets of 20# Bond, and up to 20" wide (largest in its class).
- ◆ **Easy to Use** Automatically cuts wire to length, accurately feeds and positions wire for insertion, sends book to automatic closing station, and delivers book to tray or optional takeaway conveyor.
- ◆ **Touch Key Formatting** Most functions variable and keypad controlled.
- ◆ **Skip Binds** Only finisher in its class to Skip Bind, up to 9 per cycle, with or without hangers.
- ◆ **Adaptable** Finishes flush cut, overhanging and wraparound covers, as well as extended index tabs.
- ◆ **Reduces Waste** Finishes from economical Wire-O® spools. Automatic features reduce makereads.
- ◆ **Ergonomic Design** Operator-friendly with large table-top workstation helps reduce fatigue.
- ◆ **Finished Edge** Min: 2", Max: 20"
- ◆ **Non-Finished Edge** Min: 2", Max: 30"
- ◆ **Installation** Caster wheels allows easy placement.
- ◆ **Voltage Requirements** 110/120V 60/50 Hz
- ◆ **Air Required** 80 PSI using 4 CFM maximum
- ◆ **Dimensions** 62"H x 75"W x 35"D
- ◆ **Weight** Approx. 800 lbs. unpacked
